The changes have been made to correct minor typographical error.

Allowable Subject Matter

3. Claims 1 and 2 are allowed.
4. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest alone or in combination, the limitations: "wherein at least one OLED pixel in each row has at least two organic electroluminescent diodes, and wherein the at least two organic electroluminescent diodes are connected in series so that if the one of the at least two or organic electroluminescent diodes contains a short the other will function as a current limiting component and the OLED pixel will still produce light" as claimed
